

BRITISH PLAN OF BIG NAVY SCORED

Competition With U. S. Would Be Disastrous, Many Observers Hold

LONDON, Jan. 11.—(Correspondent.)—Any attempt by Great Britain to build a big navy in competition with the United States would be "absolutely disastrous," say some of the leading weekly periodicals of London commenting on the naval estimates for the current year. As presented in the house of commons these estimates are fixed at £20,872,300.

The Spectator condemns the post-war recurrence of "navalism" under the caption "The Naval Skin Game."

Against whom should we be building? It asks. "Either against America or Japan. We should not be building both for an alliance between them against Great Britain is inconceivable."

"We want to say most emphatically that our opinion is a competition with America would be absolutely disastrous. We hope the nation will never consent to it."

Any suggestion of a "two keels to one" naval policy as directed against the United States the Spectator dismisses as ludicrous and it underlines the phrase "We must not turn our policy on the possibility of war with America."

Ever we joined with Japan against America, we should have rounded the knell of the British empire," the paper concludes.

The Nation, which brands big navalism as sheer lunacy, also strongly opposes naval competition with the United States which it says will have a navy superior to the British in 1924.

"We cannot successfully enter on a shipbuilding competition with America which has twice our population and four times our resources."

"Our navalists have put another nail in the coffin of the league of nations. Unless this policy is repudiated at once, it will do more than anything else to keep America out of the league, to impel her to a political and economic isolation, to develop her full powers of military and naval defense, drawing the South American states into a pan-Americanism fatal to the larger internationalism and depriving the broken countries of Europe of the economic and financial aid that they badly need, and that only the trade and credit of America can supply. That way lies neither peace, nor economic recovery, nor financial salvation."

The Outlook, which apologizes for "fluffing off the reader the painful subject of an Anglo-American war, which is rightly not considered thinkable by most of us," considers that under existing conditions of mine and submarine warfare, the British fleet were it twice as big as it is, could not venture into American waters, nor could the Americans, with three the number of dreadnoughts they possess, venture to approach the British coast.

Incidentally, the Saturday Review puts in a strong plea for the sale of the West Indies by Britain to the United States in order to reduce British indebtedness to America, without sacrificing British trade interests.

WHICH ONE WILL GET A CRACK AT DEMPSEY?

Tex Rickard knows a lot of ways to amuse New York fans. He didn't make any mistake in signing up Tommy Gibbons of St. Paul and Harry Greb, Pittsburgh's favorite son, for a fifteen-round decision bout at his Garden of Waikiki, Jan. 23.

Gibbons and Greb are both considered worthy opponents for Dempsey, and contenders for Dempsey's struggle-hold on the heavyweight title.

Both are light heavyweights. Greb can reduce to the middle-weight poundage. In fact, the Pittsburgher recently has made New York his home in order to be handy if John Wilson should ever decide to defend his honor as a fighter.

Greb figures that if he can knock out Wilson he will try to do a Robert Fitzsimmons and tackle Dempsey.

The St. Paul boy has had trouble in getting bookings for the past year. He tramped all over Europe in search of work to do, but the most he got from Beckett was a "nothin'-doin'" salute.

So Gibbons has been forced to pick up only small purses here and there. At Peoria, Ill., he has drawn down \$2000 several times, but in Milwaukee, St. Paul or New York he should be a \$50,000 attraction.

If the Big Town folk don't see a ribbon-cutting match between this pair it will be because the Pittsburgh and St. Paul fans buy up all the seating accommodations and they can get in.

ICE CAVES FOUND IN IOWA PARKS

DES MOINES, Ia., Jan. 11.—Iowa has achieved such remarkable results in state park creation and development that the first national conference on parks is being held in this city under joint auspices of the department of the interior and the state of Iowa. Experts from every state are present to discuss park problems and incidentally to learn how Iowa has been able to do so much.

Ninety-seven out of every one hundred acres in Iowa are capable of cultivation, according to official statistics. Leaving only three per cent of parkable land. That three per cent, however, contains some interesting outdoor things. The Indian mounds, for instance, several hundred of which are scattered over the state, are in a unique way to the United States what the pyramids are to Egypt, relics of an ancient civilization. About fifty of the mounds are within state parks, while the others will be included in the parks to be laid out in the future.

Some of them have been despoiled for their treasures of pottery, beads and fighting implements, but many remain intact and officials of the Iowa Historical department hope some day to have an adequate collection of the utensils which the first Americans used in their every day life.

The ice caves of Iowa are another interesting part of its park system. They owe their existence, probably, to those prehistoric seas which once covered this territory, for they are found in limestone regions, where the rock is porous. In the winter these cavities store up cold air. When summer comes and the corn begins to grow under the impulse of a burning sun, the frigid air escapes slowly, cooling the month of the caves with grime and hoarfrost.

These caves in turn give rise to one of the most interesting botanical phenomenon of this country—the survival in Iowa of trees and flowers that have their normal range far to the north. While Iowa sweaters, the temperature of the soil on the rocks near the caves remains at 50 to 55 degrees west.

HARDING THRIFT PLEA IS ECHOED

LONDON, Jan. 11.—Premier Lloyd George has adopted the example of President-elect Harding of the United States and issued a call to the public to practice thrift. "I have seen a very sound and sensible appeal by the newly-elected president of the United States to the American people for all-around economy and I make the same appeal to the people of this country," said the premier at a dinner of the Federation of British Industries.

Mr. Lloyd George warned his hearers that a period of great and inevitable depression was coming and the question was, he said, how to shorten it or mitigate its evils.

"Europe is standing in front of our shop windows," he went on, "it wants to buy, but it is in rags and its pockets are full of poverty. In the good old days there was a great store of men who reconstructed a broken city with a trowel in one hand and a sword in the other; but Europe must set to work with both hands."

"Let the government set the example to the nation—yes, but let the nation set the example to the government," he urged. "The cabinet has appointed a committee to cut down expenditures and I suggest there should be a committee in every household to cut down expenditures. I know what will happen."

"Brevity" someone shouted, and everybody laughed.

"Each member of the family," Lloyd George went on, "will want to cut the expenses of the other. The women will cut down the cigar bill and the men the dress bill. That is what happens in the public expenditure. But it is essential, if the nation is to recover that there should be rigid, ruthless economy for some time to come."

JOHN H. BERNIS, of Cincinnati, Ohio, who says his wonderful restoration to health since taking Tanlac has astonished all his friends, has gained twenty pounds.

"My friends are all astonished over my wonderful restoration to health since taking Tanlac," said John H. Bernis, of 308 East Front Street, Cincinnati, Ohio, recently.

"I don't know what it is, but there is something about Tanlac that certainly does the work," he said, "and I firmly believe if it hadn't been for this medicine I wouldn't be here now. I'm completely restored my health and I have gained twenty pounds besides. I have a splendid appetite now and can eat anything I want without being troubled in the least afterwards."

"Before taking Tanlac my health was dreadfully run down. My main trouble was indigestion, and I suffered misery night and day. I never seemed hungry, and the little I ate upset my stomach. I was nervous and couldn't get a good night's sleep. I lost thirty-four pounds and was going down hill rapidly. It seemed like the more medicine I took the worse I got."

"But since taking Tanlac I am like a brand-new man. I sleep like a farm hand all night and feel just fine all day. In fact, I'm a perfectly well man once more. Tanlac certainly has anything I ever saw in my life."

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound" which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance—Advertisement.
